

PROGRAMME BROCHURE

Supply Chain Management Skills & Training

A practical, mentoring-led programme for professionals who want to understand supply chains, use that knowledge with confidence, and apply it to advance their career — no prior logistics background required.

Programme Overview

Foundations today. Career impact tomorrow.

This programme is built for adult and professional learners who want more than surface-level familiarity with supply chains — a genuine, working understanding of how goods and information move from supplier to customer, and how to apply that with confidence in your own role. It combines practical, hands-on skill-building with the professional English needed to talk about processes and delays credibly in meetings, in writing, and in interviews. This is mentoring and training as much as it is tuition: the goal is that you leave able to *discuss* supply chain topics with genuine credibility, not just recognise the terminology.

STAGE 1 — INDUSTRY FOUNDATIONS

Introduction to Supply Chain Management

Supply chains sit behind nearly every product and service — understanding the basics is a genuinely useful professional skill.

- How goods and information move from supplier to customer
- Where the common pressure points and delays happen
- The English to describe processes, timelines, and issues clearly in a professional setting
- Practical ways to build supply chain literacy relevant to your own role

STAGE 2 — CAREER PATHS

How to Start a Career in Supply Chain Management

For professionals aiming at logistics, procurement, or operations roles.

- How supply chains function day to day, in practical terms
- Specialist English for communicating about processes, delays, and reporting
- How to speak credibly about supply chain topics from day one in a new role
- How to present supply chain skills convincingly on a CV and in interviews

OUTCOME

Understand supply chains. Use that knowledge with confidence. Advance your career.

Skills Across Three Dimensions

What you'll gain by the end of the programme

TECHNICAL

Working with supply chain processes

- Understanding how goods and information flow from supplier to customer
- Reading and following logistics and procurement terminology
- Spotting common pressure points and delays
- Familiarity with reporting and tracking processes

SOFT SKILLS

Communicating with confidence

- Describing processes, timelines, and issues clearly
- Explaining delays or disruptions professionally
- Coordinating clearly across teams and suppliers
- Confident interview and workplace conversation

BUSINESS

Applying supply chain skills at work

- Supporting logistics, procurement, or operations processes
- Identifying and communicating about pressure points and risks
- Presenting supply chain skills on a CV and in interviews

Who This Is For

Professionals aiming at logistics, procurement, or operations roles; career-changers entering supply-chain-adjacent work; anyone who deals with suppliers, timelines, or operational processes and wants more confidence; and anyone who wants clearer professional communication about processes and delays.

Pricing

Simple options, whichever way you'd like to start

TRY IT FIRST

Taster Session — £25

A single 1:1 session, no obligation. A low-risk way to meet your tutor and see how the programme works before committing to the full track.

STAGE 1

Industry Foundations — £115

3 × 1:1 sessions covering the Introduction to Supply Chain Management curriculum in full.

BEST VALUE

Full Career Track — £275 (Save £20)

Industry Foundations + Career Paths together — 9 × 1:1 sessions in total, taking you from first principles through to career-ready confidence.

- Available as one payment of £275
- Or 3 monthly payments of approximately £92

PREFER TO LEARN AT YOUR OWN PACE?

Self-Paced Learning Packs

Same core content, without live sessions — ideal if you'd rather work through the material independently and on your own schedule.

- Introduction to Supply Chain Management (self-paced) — £45
- Industry Foundations (self-paced) — £60

NOTE | Taster session fee is deducted from your track price if you enrol within 14 days.

How It Works

A simple, guided path from foundations to impact

1

Start with Industry Foundations

Build a clear, practical understanding of supply chain fundamentals and begin applying that confidently in your own day-to-day work.

2

Progress to Career Paths

Move from general familiarity to career-ready capability — practical workflows, terminology, and interview-ready confidence.

3

Apply it — Your Impact

Bring what you've learned back into your role: add value to your team, discuss supply chain processes and issues with genuine confidence, and keep building on that fluency over time.

Format & Delivery

Delivered 1:1, at your own pace, with a structure that adapts to your starting point and goals — whether that's building confidence for your current role or preparing for a move into a logistics or operations-adjacent position. As with all ALM Learning programmes, this is personal, mentoring-led tuition rather than a fixed, one-size-fits-all course.
